

## Spacemisers

Freestanding turntable rotating bin cabinets take up very little floor space, but help maximize the capacity. They come in many sizes, and models are available both for small-parts cabinets and for storage bin cabinets, which can be chosen based on the user's own needs, and these must be ordered separately. A bench-top version is also available, suitable for use in spaces such as production facilities, stores, and warehouses.

- The small-parts turntable unit takes up only 2.7 sq ft, and has room for 12 cabinets
- The storage bin turntable unit takes up only 6.9 sq ft, and has room for 16 cabinets
- Up to 720/256 drawers, and the possibility for more than 1,000 compartments
- The units are sturdy and stay in place; the load capacity is 880 lbs/1764 lbs
- Easy to assemble; some models can even be put together without tools
- Models with ESD protection are also available

**NOTE: CABINETS SOLD SEPARATELY**
